

ABOUT REALM[®]

LEARN ABOUT HOW REALM[®] CAN BENEFIT THE WORK OF YOUR MINISTRY

Realm[®] is the official parishioner database of St. Maria Goretti and the whole Diocese of Lafayette-in-Indiana. In addition to it serving many administrative needs of our parish, including parish registrations, sacramental information, financial contributions, and family contact information, Realm[®] has a number of powerful tools for engagement that can be utilized by individual ministries to support your mission through ministry groups.

Ministry Groups

Create more ways to connect and build relationships across your ministry. Below are some benefits and capabilities of Ministry Groups within Realm[®]:

1. **Manage group participants:** Ministry leaders and volunteers can manage rosters (volunteers or participants) in order to best manage and deploy our people.
2. **Keep your ministry connected:** Realm[®] helps ministry leaders connect with your volunteers and/or participants. You can communicate with everyone in your group at once or individually when confidentiality is needed without having to manage lists or email addresses on your personal email.
3. **Build community within your ministry:** Not only can ministry leaders communicate with volunteers or participants, you can also allow the volunteers and participants to take part in the dialogue as well! At your discretion, you can allow anyone in your group to post messages on the ministry newsfeed, by creating a ministry chat room, or send a message to those in the group.
4. **Bring people together for a purpose:** Ministry leaders can build events in Realm[®] to include RSVP's, edit dates and times, and even request items for members to bring, and send these events out through Realm[®] to all members of the ministry.
5. **Track ministry participation:** Ministry leaders can easily take attendance so you'll always know who's active in your ministry, and who might need a personal invitation to come back.
6. **Go mobile:** Realm[®] allows ministry leaders to stay connected with your volunteers and/or participants anytime through the Realm Connect mobile app. You can post attendance, communicate with members, see all participants, and more.
